### Daring Robbery Takes Place This Morning Tonopah Depot

#### BAR OF BULLION IS STOLEN FROM TRUCK BY UNKNOWN PARTIES

One of the most daring robberies that has occurred in Tonopah in years was reported this morning by Lee Henderson, driver for the American Railways Express company, when a bar of bullion, having a value of \$1500, and belonging to the MacNamara Mining and Milling company, was stolen from a truck at the depot an hour previous to the departure of the northbound train. The bar weighed about 75 pounds, and the authorities are at a complete loss to solve the mystery.

No one was seen near the truck, although there were quite a number of people in the vicinity. Mr. Henderson had pulled the truck past another and when he turned around the bullion had disappeared. It is believed that the party or parties who took the bullion must have placed it in an auto and made a hurried departure following the theft.

In view of the great weight of the bullion the officers made sure that it had not been placed in any grips of outgoing passengers, and it seems to be a certainty that it must have been carried away in an auto.

The express lot number on the bar was 127 and the number of the bar was 750, which had been stamped in the bullion. Both Chief of Police O. H. Smith and Sheriff W. H. Thomas were immediately advised of the theft and they started an investigation, calling into service all their deputies.

The bullion shipment, consisting of four bars and having an estimated value of \$5000, was being sent to San Francisco by the MacNamara Mining and Milling company. Bar No. 750 was the heaviest, and it is evident that the guilty parties had decided upon securing the largest.

The bullion was delivered to George L. Kurtz, local agent for the American Railways Express company, late yesterday afternoon, who gave a receipt for the same. It was then in charge of the express company, and the loss will fall on that corporation.

Mr. Henderson is at a loss to account for the mysterious disappearance of the bullion. He did not have his eyes off the bars for a period of five minutes, and says the bar must have been taken at the time the truck with the bread box pulled up.

Whoever stole the bullion will have difficulty in disposing of the same as the smelters will not buy unless they are informed of the place from whence it came. It is not believed that the guilty parties have yet left town, but outside towns and cities have been notified to be on the alert in the event that any attempt at disposing of the bullion is made.

Mr. Kurtz, the local agent, has only been in charge of the Tonopah office for two weeks. He has been connected with the American Railways Express company for eight years, and he stated this morning that this was the first time during his entire service that any theft had ever been committed.

George L. Kurtz, local agent of the American Railways Express company, this noon received a wire from E. E. McMichael, division superintendent with headquarters in Sacramento, in-
